BOOMBATCHA SOUNDSET

The soundset is available as a SoundDiver library, Standard MIDI File and SYX file.
Don't forget to visit http://www.boombatcha.com for other patches and downloads !!

I would love to know what you think of these sounds and to hear what music you have made with them. A lot of effort has gone into the creation of the patches.

Please contact me at Email: boombatcha@boombatcha.com
